Colombia's Axesat chooses Gilat to provide a SkyEdge broadband satellite network

Petah Tikva, Israel, July 25, 2007 – Gilat Satellite Networks Ltd. (Nasdaq: GILT) today announced it has been chosen by Axesat, a leading satellite service provider in Latin America, to provide a SkyEdge broadband satellite network comprised of a hub and more than 400 SkyEdge VSATs. With completion of this latest deployment, Axesat will operate more than 2,500 Gilat VSATs nationwide.

Axesat will deploy Gilat's SkyEdge Pro and SkyEdge IP VSATs to provide Colombian enterprises with private networking services including interactive data, broadband Internet access, and Voice over Internet Protocol (VoIP) services. Gilat's SkyEdge platform was chosen following Axesat's successful deployment and operation of its network comprising more than 2,000 Gilat 360E VSATs.

“This agreement expands the successful relationship we have enjoyed with Gilat since 2003 – a relationship that is essential to the continued growth of our company,” said Mauricio Segovia, General Manager, Axesat. “The SkyEdge network, based on Gilat's advanced VSAT technology and experience will enable us to continue providing the highest possible level of customer service and support to Colombian enterprises in a variety of important business segments,” he added.

Jose Aronovich, Gilat Network System's regional vice president sales, Latin America, said, “This new contract with Axesat demonstrates our continued success in Latin America, where we provide equipment and services to many of the region's largest operators. Gilat's broadband satellite solutions enable businesses and consumers throughout Latin America to benefit from increased productivity and advanced services.”

Gilat's SkyEdge is a satellite communications system that delivers high-quality voice, broadband data and video services over a powerful unified system. SkyEdge represents Gilat's extensive knowledge base and field-proven product offering, acquired through two decades of experience. SkyEdge's flexible architecture and efficient space segment utilization make it an ideal platform for operators and service providers.

As part of its commitment to the Latin American market, Gilat recently launched a new Spanish language web site, available at www.gilatnetworks.com

About Axesat

Press Release (cont.)
